

What Makes Our Journey to School SAFE?

Street design elements that make a **safe school street**.

1 Your Own Path!
 Special paths just for walking and cycling, so you're not near cars! Walk or cycle with your friend to school.

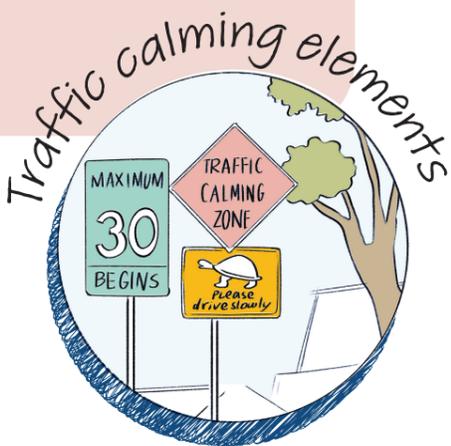

2 Easy Drop-Offs!
 Spots for grown-ups to drop you off and pick you up, without noisy, smoke-filled traffic jams!

Clean, comfy buses & trains with safe places to wait. No more standing in the sun or rain!
Cool Public Transport Rides!

6 Slow Down, Vehicles!
 Things that make vehicles drive slower, so you're extra safe!

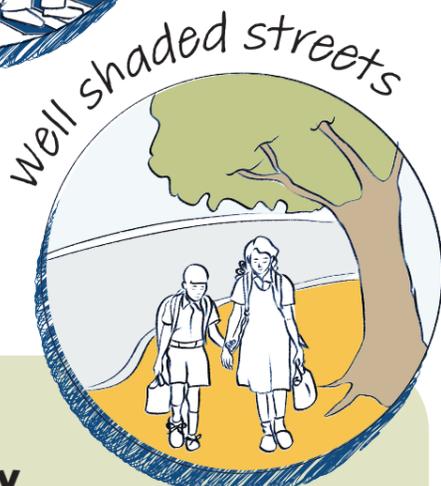

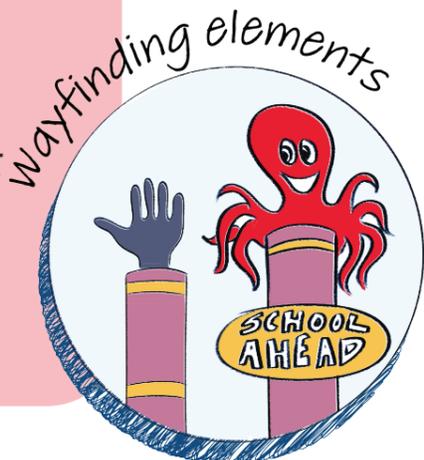

5 Crossing Superpowers!
 Places where you have the superpower to make vehicles stop for you to cross. Look left, right, left!

Fun Stops!
 Little areas along the way where you can take a quick break or chill out.

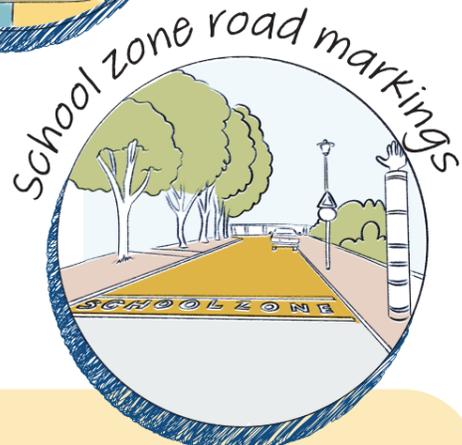

7 Never Get Lost!
 Signs that show you the way to school and important places!

8 Shady Adventures!
 Trees that keep you cool on sunny days! Ahhh!

9 School Zone Magic!
 Bright lines and signs on the road that tell drivers they are near YOUR school and need to be extra careful!

Always walk on the footpath! ★ Look both ways before crossing the street! Use the zebra crossings! ★ Pay attention to signs and signals!

How to stay safe on the roads?
